

PRESS RELEASE – 9/6/05

**Filler for Pre-Sterilized
Microtubes & Cryovials**

M&O Perry now offers their popular Model P1600 Automatic Filler with a “De-Capping” mechanism to handle pre-sterilized and assembled microtubes or cryovials. A choice of pumps is offered along with disposable filling needles. A fully integrated HEPA Hood with electronic interlocks is a space saving option. Other valuable options are the torque read-out and print features.
